

# Bill Nye, Drip It

Take a sip,  
change the shape of it,  
step on a fluid,  
and through it you will slip.

If you're a liquid or a gas, (you're a fluid)  
if your shape will not last, (you're a fluid)  
If you're the air we breathe (then you're a fluid)

Now fluids,  
can change shape,  
flow around,  
and circulate,  
take a liquid,  
or a gas,  
and you will know,  
what you have,  
a fluid,  
fluid's good!

If the container is round, (so's the fluid)  
the air moves all around, ('cause it's a fluid)  
the water's pouring down, ('cause it's a fluid)  
we need fluids  
fluid's good!

I like fluids  
fluid's good!
