

Bill Nye, Fossil Man

Last night I dug myself a trilobite
Now a rock, once alive
But it came out all right
'Cause it's fossilized
Boy was such a long time

And I know that fossils take a long, long, time
To form before humans like me can find
And learn about the past of life on earth
Oh yeah yeah yeah...
I'm a fossil man
Fossil man
Digging fossils up
Out here all night

And I know that fossils take a long, long, time
And I know that fossils take a long, long, time
And I know that fossils take a long, long, time
