

# Bill Nye, Just Wash Your Hands

(Woah woah woah woah)  
If you don't want germs  
I've got something to say  
And if you gotta cold, darling  
Try things my way

Germs are real small  
Germs make you sick  
Don't have to worry if you know this trick  
(Always use soap  
Touch doorknobs with care  
Keep cuts clean)

Just wash your hands  
You're gonna stop germs incubating  
Just wash your hands  
Don't finger your eyes  
Use a tissue  
It's viruses and bacteria you're spreading  
I'm not into germs  
Just wash your hands
