## Bill Nye, Just Wash Your Hands

(Woah woah woah)
If you don't want germs
I've got something to say
And if you gotta cold, darling
Try things my way

Germs are real small Germs make you sick Don't have to worry if you know this trick (Always use soap Touch doorknobs with care Keep cuts clean)

Just wash your hands
You're gonna stop germs incubating
Just wash your hands
Don't finger your eyes
Use a tissue
It's viruses and bacteria you're spreading
I'm not into germs
Just wash your hands
