

Bill Nye, Pressure

Feel the pressure with your hands
Gas puts pressure on this can
Pressure

Your feet put pressure on the ground
Pressure helps you hear these sounds
Pressure

Pressure
Always pushing down on you
Feel it
Liquids, gasses have it too
Feel it

Pressure fills up this balloon
Also works in this vacuum
Pressure

Air pressure flows inside this flute
And inside a parachute
Pressure

Pressure
Always pushing down on you
Feel it
Liquids, gasses have it too
Feel it

Feel the pressure with your hands
Feel the pressure while you can
Pressure
