

Bill Nye, So Many Flowers

Look at all these flowers, must be a quarter million
Different kinds, blows my mind
Yeah yeah yeah yeah
If you're not a coward
Well, learn just how they pollinate
Stamen here, pistil there
Hey yeah yeah yeah

I wanna be where the flowers bloom
Annuals, perennials
That's why I love it when it's May or June
So many colors

Just one time I want to see
How a flower can make me sneeze
Pollen to the stigma, sweet sensation
Just a thing that we call pollination

I wanna be where the flowers bloom
Annuals, perennials
That's why I love it when it's May or June
So many colors
