

Bill Withers, Heart In Your Life

There is only one love in your lifetime
There is only one lover can only do right
When they love you until the daylight
They put their heart on your life

There is only one love in your lifetime
Keeps on turning you on when you turn out the light
And they love you with all their might
They put their heart on your life

Put a little heart in your life oh
Put a little heart in your life
Put a little heart in your life
They put their heart in your life

Hold on! I'm in love and only love
What she can do tonight
Hold on! When the lover in your life
They put their heart in your life

There is only love in the nighttime
Keep on turning you on when you turn out the light
When they do unto you to do right
Put the heart on in your life

There is only one love in your lifetime
There is only one lover can only do right
When they love you until the daylight
They put their heart on your life

Put a little heart in your life oh
Put a little heart in your life
Put a little heart in your life
They put their heart in your life
