

Bill Withers, Love

Love, everybody needs you sometimes
Why do I have to call on you
When I'm only feeling sad and lonely
Let's just love awhile and smile

Love, can we just be happy one time
Why must it always end with you and I
Only feeling sad and lonely
Let's just love awhile and smile

Love, help me shake it
Can we make it right (love can make it right)
We can make it (love can make it right)
Help me make it right (love can make it right)
We can make it (love can make it right)
If we make it right

Love, everybody needs but one time
Try not to make it end with you and I
Only feeling sad and lonely
Let's just love awhile and smile

Love, help me shake it
Can we make it right (love can make it right)
We can make it (love can make it right)
Help me make it right (love can make it right)
We can make it (love can make it right)
If we make it right
