

# Bill Withers, Make A Smile For Me

Make a smile for me  
Lately I've been so lonely  
And a smile from you  
Might make these blues go away

Stay awhile with me  
Can't you tell I've been lonely  
And a smile from you  
Might make it a nicer day

Close your eyes and dream of a sunny place  
Watch the world light up when you smile  
Stay with me and smile at me, sunny face  
Chase the clouds away with your smile

Close your eyes and dream of a sunny place  
Watch the world light up when you smile  
Stay with me and smile at me, sunny face  
Chase the clouds away with your smile
