

Bill Withers, Something That Turns You On

I hope you find in me
Something that turns you on
A tie that binds with me
And holds us together from now on

Oh! I want to be what you need. Ow baby yeah!
When it gets down to love
I want to be what you want me to be
When it gets down to love

Really want to be what you need
Wanna be the one that turns you on
Really want to be what you need
Wanna be the one that turns you on

I hope you find in me
Something that's peaceful and warm
Something that keeps us together
Til one of us is dead and gone

Oh! I want to be what you need
Ow baby yeah!
When it gets down to love
I want to be what you want me to be
When it gets down to love

Really want to be what you need
Wanna be the one that turns you on
Really want to be what you need
Wanna be the one that turns you on

I hope you find in me
Something that burns on and on
Something that keeps us together
Keeps our love still holding on

I want to be what you need
When it gets down to love
I want to be what you want me to be
When it gets down to love

Really want to be what you need
Wanna be the one that turns you on
Really want to be what you need
Wanna be the one that turns you on
