

# Bill Withers, Tender Things

Sweet and tender things  
Are so much nicer than silly games  
Softness  
Makes it easier to smile

It's better to remember things  
That make the sun shine in your memory  
There's clouds enough for you to see  
Smile for me and take a look around

And you know that you're in love when things  
Are better than you thought they'd ever be  
Won't you smile for me  
I like what's going down

(hum interlude)

And you know that you're in love when things  
Are better than you thought they'd ever be  
Make a pretty smile for me  
I like what's going down (since you've been around)

Sweet and tender things  
Makes you feel better than playing games  
Softness  
Makes it easier to smile

You're in love when things  
Are better than you thought they'd ever be  
Smile for me  
I sure do like what's going down (since you've been around)
