

Bill Wyman, Drive My Car

My face in the mirror looking like a fool
The power of the shower makes me feel real cool
You're putting on a red dress lookin' real cute
If we ever get together I gotta buy a new suit
You can drive my car but don't drive fast

Sitting in a diner coffee and toast
Finger-lickin' chicken and down to the coast
I love the ocean I love the sea
Breathing in the ozone's good for me
You can drive my car but don't drive fast

Drive my car but don't drive far
Steady on the pedal cause you'll never get a medal
You can drive my car but don't drive fast

Sitting on a sand dune looking at the moon
Get yourself together, cause we've gotta go soon
You're sucking on a lollipop down to the stick
Searching for a sugar-rush take another lick
You can drive my car but don't drive fast

Drive my car but don't drive far
Steady on the pedal cause you'll never get a medal
Drive my car but don't drive far
Steady on the pedal cause you'll never get a medal
You can drive my car but don't drive fast

My knees are knockin' my body's rockin'
If we walk away the car needs locking
We're birds of a feather we've gotta get together
Wind or rain in all kinds of weather
You can drive my car but don't drive fast

Eat a bag of cherries spit out the pips
Never mind the berries let me taste your lips
You've had your beans you've split your jeans
Next time we get together you'll have to wear leather
You can drive my car but don't drive fast

Drive my car but don't drive far
Steady on the pedal you'll never get a medal
You can drive my car but don't drive fast

Steady on the pedal you'll never get a medal
Steady on the pedal cause you'll never get a medal
You can drive my car but don't drive fast

Steady on the pedal you'll never get a medal
Steady on the pedal cause you'll never get a medal
You can drive my car but don't drive fast
