

Billie, Girlfriend

I saw you jump up
You and your friends, baby
And I heard you say they're playing a jam
(There's a jam right here baby)
so waving you hand
from side to side, sugar
hear you're claiming you're a certified man
(certified)

I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell - no
If my thoughts of you are true
Then I wanna get with you
So I'll step in while I'm given the chance yeah

Do you had a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have your number? Can I have your number?
You don't have a thing to lose.
Do you have minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

Heard a slow song
You don't waste time baby
And you asked me if I wanted to dance?
(sure I wanna dance)
playing hard to get
takes too long, sugar
so I told me friends that I found'a man
(you're the one)

I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell-no
If my thoughts of you are true
Then I wanna get with you
So I'll step in while I'm given the chance

Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have your number? Can I have your number?
You don't have a thing to lose
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

do ya do ya do ya have a girlfriend?
you're looking real cool
do ya do ya do ya have a minute?
I was just thinking
do you do you do you have a girlfriend?
We could spend some time
do you do you do you have a minute?
Are you all alone? A-ha A-ha

I know it might sound strange
But I pictured us alone
And you're kissing me in ways I can't tell - no
If my thoughts of you are true
Then I wanna get with you

So I'll step in while I'm given the chance
Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool
Can I have your number? Can I have your number?
You don't have a thing to lose
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

Do you have a girlfriend? Do you have a girlfriend?
You're looking real cool You're looking real cool

Can I have your number? Can I have your number?
You don't have a thing to lose
Do you have a minute? Do you have a minute?
What is on your mind? What is on your mind?
I was just thinking I was just thinking
We can spend some time

(Repeat and Fade)
