

# Billie Holiday, NO REGRETS

Harry Tobias / Ingraham

No regrets

Although our love affair has gone astray

No regrets

I know I'll always care though you're away

So now our happy romance ended suddenly

Still in my heart you'll be forever mine

No regrets

Because somebody new looks good to you

No regrets

Sweetheart no matter what you say or do

I know our love will linger

When the other love forgets

So I say goodbye with no regrets

No regrets

Because somebody new looks good to you

No regrets

Sweetheart no matter what you say or do

I know our love will linger

When the other love forgets

So I say goodbye with no regrets
