

Billie Holiday, WHERE IS THE SUN?

John (?) Redmond / Lee David

Oh clouds above me

Where are the birds that used to sing?

Everything's wrong

Oh where is their song of love?

Where is the one

Who said he loved me

Far, like those clouds he used to bring

Can it be true there's somebody new to love?

Listen my heart

Don't feel so bad

Think of the kisses we knew

You know my heart

The moments we had

Maybe he's missing them too

Where is the sun?

Oh clouds above me

Don't take the dreams to which I cling

Where is the sun?

Oh where is the one I love?
