## Billie Holiday, YOU BETTER GO NOW

Irvin Graham / S. Bickley Reichner You better go now Because I like you much, too much You have a way with you You ought to know now Just why I like you very much The night was gay with you There's the moon above And it gives my heart a lot of swing In your eyes there's love And the way I feel it must be spring I want you so now You have lips I love to touch You better go now You better go, 'cause I like you much, too much
