

Billie Jo Spears, If You Want Me

If you think I'm
Gonna just bide my time
Hell, by the time they fi-nd
While you're runnin' free-ee-ee
If you think I don't know
If you think you've got the show
Well you better think again
If you want me-ee-ee

Baby, I don't care
For a man I have to share
With somebody else somewhere
You're runnin' to see-ee-ee
I don't want part of you
I want all the heart of you
That's the way it's got to be
If you want me

And so it's up to you just where we're goin'
(And so it's up to you just where we're goin')
It's either all the way or not at a-a-all
'Cause I can't give myself completely knowin'
('Cause I can't give myself completely knowin')
If someone else is answerin' when you feel the need to ca-a-all

So my friend (so my friend)
He can just let it end (let it end)
Or go back and start again
What's it gonna be-ee-ee
Remember what I say
It's got to be all the way
There can't be no in-between
If you want me

There can't be no in-between
If you want me
