

Billie Jo Spears, When You Hurt Me More Than I

The time will come when I'll be free from this hold you have on me
When you hurt me more than I love you
You'll pay for every time I've cried just as soon as I decide
That you've hurt me more than I love you

Maybe mine next heartache will be the final one
Cause maybe I won't love you when it's gone
It may not take but one more pain just one more might make the change
If you hurt me more than I love you

[steel]

Maybe mine next heartache will be the final one
Cause maybe I won't love you when it's gone
This love that's kept me yours so long will die someday and I'll be gone
When you've hurt me more than I love you
When you've hurt me more than I love you
