

Billie Piper, Saying Im Sorry Now

(This is B y'know
First class y'know
this is B here
uh uh uh yeh)

Nobody knows this but me
All i could see was someone
Who didnt love me for me
How could i have been so dumb?
I tried to act like i knew
You never cared from the start
I gave you problems cos I
Knew that you gave me your heart

My baby my my baby
I wanna come back home
My baby my my baby back to those open arms
I'm everything you want
Lord knows i'm everything you need
I'll be those promises that you always said to me

If i never told you i need you
I'm saying that i need you now
If i never told you im sorry
I'm saying that im sorry now (saying im sorry now)

And now im all alone
My friends dont understand
Said you cant have a good life if you cant keep a good man
I was a fool back then
I tried to be Miss Strong
I let you go when you
Didnt do a damn thing wrong

My baby my my baby
I wanna come back home
My baby my my baby back to those open arms
I'm everything you want
Lord knows i'm everything you need
I'll be those promises that you always said to me

If i never told you i need you
I'm saying that i need you now
If i never told you im sorry
I'm saying that im sorry now (saying im sorry now)

(why) deep down (why) you know you know im sorry
(why did i let you go?) deep down you know you know im sorry
(why why) deep down (why why) you know you know im sorry
(why did i let you go) deep down you know you know im sorry

My baby my my baby
I wanna come back home
My baby my my baby back to those open arms
I'm everything you want
Lord knows i'm everything you need
I'll be those promises that you always said to me

If i never told you i need you
I'm saying that i need you now
If i never told you im sorry
I'm saying that im sorry now (saying im sorry now)

Repeat to fade
