

Billie Piper, Something deep inside

Cmon cmon (remix)
Cmon cmon
Something deep inside
The first time that it crossed my mind
I kept on pushin' it aside
Its such a strong emotion
Second time was plain to see
This feeling rushing over me
Oh yeah
And unknown to me (unknown to me)
This chemistry is
Something deep inside
CHORUS:
I can feel but I cant touch
Can never get too much
I hear you loud and clear
Ive got nothing to fear
Your love will be my guide
I've never been this satisfied
Its something deep inside
Cmon cmon
The third time was just as sweet
Boy you make my life complete
Every thought and motion
Its hard just telling you
Everything I feel is true
Oh yeah
And unknown to me (unknown to me)
This chemistry is
Something deep inside
CHORUS
Cmon cmon
Its crossed my mind
Its crossed my mind
So if you follow emotion
The love and devotion youll find
CHORUS x 3 to fade
