

Billie Piper, Walk of life

Let me care for someone else
I don't wanna talk about myself
I need to shed the light on you
To understand the things you do
Could we share a little time?
Break the bread and sip the wine
Now's no time to hesitate
Save me from this heavy weight
Are you gonna walk the walk of life with me
Are you gonna see more than you dreamed you'd see
Are you gonna walk hand in hand with me
Can you be the one who sets my shadow free
Are you gonna try to understand with me
Are you gonna be the best that you can be
Are you gonna walk the walk of life with me
Walk of life
Walk of life
Losing my reality
You can bring this back to me
With you I wanna spend my youth
With you I wanna live the truth
Could we pass a golden hour?
Sow the seed and grow the flower
Reap reward and clear our sins
This is where our life begins
Are you gonna walk the walk of life with me
Are you gonna see more than you dreamed you'd see
Are you gonna walk hand in hand with me
Can you be the one who sets my shadow free
Are you gonna try to understand with me
Are you gonna be the best that you can be
Are you gonna walk the walk of life with me
Don't let me walk alone
Now that I have touched my home
There'll always be a place for you
A time, a perfect space for you
You can rest your tired mind
My body's temple you will find
Walk the walk of life with me
See more than you dreamed you'd see
Walk the walk of life with me
Yeah yeah
Are you gonna walk the walk of life with me
Are you gonna see more than you dreamed you'd see
Are you gonna walk hand in hand with me
Can you be the one who sets my shadow free
Are you gonna try to understand with me
Are you gonna be the best that you can be
Are you gonna walk the walk of life with me
Are you gonna walk the walk of life with me
See more than you dreamed you'd see
Be the one who sets my shadow free
Are you gonna walk the walk of life with me
Be more than all the best to me
Are you gonna walk the walk of life with me
