

Billie, So Deep

So Deep

Written by R Kelly

I never lie

I give you alibies

If you want me to leave

Or choose not to decide.....Yeah

I recive all this information

From a source of a venue

You know like a tourest

Like a spicalialty to me.....alright

I gotta on my mind boy

Acting like a dry man

Thats cool to make them break the rules

But you have to understand

Cos I'm into you, ah

The way I feel for you

The remedy is you

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go

I'm going to find you

I'm going to find you

Livin' with a spot can satisfy the heart

Rhythm with a spot is what I call my art

Now, my first impression

Leads you to obsession

Keep your possessions

Don't number me among them

I plead to do the deed

How I got to stay

You sarfice your needs

By the things you say

It doesn't face me or erase me

I'll keep on coming back

Untill you realise my full impact

Something strong to last for you

What your looking for is here

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go

I'm going to find you

I'm going to find you

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go

I'm going to find you

I'm going to find you

No need.....to cry.....i'm right.....

Behind.....and I do.....believe.....

I'm underneath your skin.....Yeah

Don't you feel the way I do?

The remedy is you

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go

I'm going to find you

I'm going to find you

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go

I'm going to find you

I'm going to find you

So deep.....Inside

No matter how you run and try to hide

Everywhere.....You go
I'm going to find you
I'm going to find you
So deep.....Inside
No matter how you run and try to hide
Everywhere.....You go
I'm going to find you
I'm going to find you
