

Billie The Vision & The Dancers, There's Hope For

Whoa oh, ah ah ah ah ah...

Lily look at my hands
I am not shaking anymore
and Lily smell my breath
I am not stinky from cigarettes
and other stuff at all

Do you think there is hope for me?
The slightest little hope for me?

There is this guy that I talk to once a week
or so he says I'm making him confused
This being a thief and a police
and at the same time being
a post-modern son-of-a-bitch

Do you think there is hope for me?
The slightest little hope for me?

And don't expect me to come crawling back to you
Texas hold 'em, you know that I hate you
Lily look at my bank account
I'm not gambling anymore

And do you think that there is hope for me?
The slightest little hope for me?
Yes, I think so
Yes, I think so
I think there's hope for anyone
if you're willing to change
Yes, I think so
Yes, I think so
I think there's hope for anyone
if you're willing to...
Yes, I'm willing to change
and I will pledge my hands to get back to you somehow, somehow
Whoa, oh, ah ah ah...

I met this fortune teller when I walked the streets
from the Jesus Park to the Noble Square
Do you think there's hope for me?
the slightest little hope for me?

"If you could spare me a dime
I could tell you everything you'd like to know,
If you could spare me some change
I could offer you the future in exchange"
whoa
I put my hand in my pocket and I found a dime
this must be my chance in a life time

Do you think there is hope for me?
the slightest little hope for me?
Yes, I think so
Yes, I think so
I think there's hope for anyone if you're willing to change
Yes, I think so
Yes, I think there's hope for anyone if you're willing to...
Yes, I'm willing to change
and I will pledge my hands to get back to you somehow, somehow

whoa, oh, ah...
whoa, oh, ah...

whoa, oh, ah...
