

# Billie, Walk Of Life

Let me care for someone else  
I don't want to talk about myself  
I need to shed the light on you  
To understand the things you do  
Bridge

Could we share a little time  
Break the bread and sip the wine  
Now's no time to hesitate  
Save me from the heavy weight

Chorus

Are you gonna walk the walk of life with me  
Are you gonna see more than you dreamed you'd see  
Are you gonna walk hand in hand with me  
Can you be the one who sets my shadow free  
Are you gonna try and understand with me  
Are you going to be the best that you can be  
Are you gonna walk the walk of life with me

Verse

Losing my reality  
Only you can bring this back to me  
With you I want to spend my youth  
With you I want to live the truth

Bridge

Could we pass a golden hour  
Sow the seed and grow the flower  
Reap reward and clear our sins  
This is where our life begins

Chorus

Are you gonna walk the walk of life with me  
Are you gonna see more than you dreamed you'd see  
Are you gonna walk hand in hand with me  
Can you be the one who sets my shadow free  
Are you gonna try and understand with me  
Are you going to be the best that you can be  
Are you gonna walk the walk of life with me  
Don't let me walk alone

Not now that I I have touched my home  
There'll always be a place for you

A time a perfect space for you  
Where you can rest you tired mind  
My body's temple you will find

Walk the walk of life with you  
See more than you'd dreamed you'd see  
Walk the walk of life with me

Chorus

Are you gonna walk the walk of life with me  
Are you gonna see more than you dreamed you'd see  
Are you gonna walk hand in hand with me  
Can you be the one who sets my shadow free  
Are you gonna try and understand with me  
Are you going to be the best that you can be  
Are you gonna walk the walk of life with me
