

# Billy Bragg, I Keep Faith

If you want to make the weather  
Then you have to take the blame.  
If sometimes dark clouds fill the sky and it starts to rain,  
Folks complain.

And though you'll hate me to  
To run and hide,  
Listen to your heart and you'll find me  
Right by your side,

'Cause  
(Refrain)  
I keep faith,  
I keep faith,  
I keep faith,  
I keep faith in you.

Yes I do,  
I keep faith in you.  
If you think you have the answer  
Don't be surprised  
If what you say is met with anger  
And contempt and lies.

No matter how hard you may want to,  
Just walk away.  
Reach out, you'll find me there beside you  
All of the way,

Because  
(Refrain)  
All the dreams we shared  
I never knew no one who cared  
About these things the way that I've see you.

It doesn't matter if  
This all falls off the cliff.  
Together we are going to see it through.  
I know it takes a mess of courage  
To go against the grain.  
You have to make great sacrifice for such little gain,  
And so much pain.

And if your plans come out to nothing,  
Washed out in the rain,  
Let me rekindle all your hopes and  
Help you start again,

Because  
(Refrain)  
I keep faith in you.  
Yes I do, I keep faith in you.  
I keep faith in you.  
I keep faith in you.  
Yes I do, I keep faith in you.  
I keep faith in you.
