

# Billy Connolly, The Welly Song

Chorus:

If it wisnae fur yer wellies where wid ye be?  
You'd be in the hospital or infirmary  
Cause you would have a dose ae the flu or even pleurisy  
If ye didnae have your feet in your wellies

Wellies they are wonderful, welliess they are swell  
Cause they keep out the water and they keep in the smell  
And when yur sittin' in a room you can always tell  
When some bugger takes aff his wellies

Chorus:

Or when your out walkin' in the country wi a bird  
And your strollin' over fields just like a farmers herd  
And somebody shouts keep aff the grass nd you think how absurd  
And you find why farmers all wear wellies

Chorus:

There's fishermen and firemen there's farmers an a'  
There's men out diggin' ditches and workin' in the snow  
This country it wid grind to a halt and no a thing wid grow  
If it wisnae fur the workers in their wellies

Chorus:

Now Edward Heath and Wilson, they huvnae made a hit  
They are ruinin' this country maer than just a bit  
If they dinnae get their finger oot we'll all be in the sh!t  
So you better keep your feet in your wellies

Chorus:
