

# Billy Crawford, You Got It

Yeah

You don't wanna wake up  
In the morning  
You don't wanna be singin  
That same old song  
So you gotta stand up  
You have to time in right  
Things get easier when you  
Spread your wings and

You want it  
You need it  
You krave it  
Believe it  
You got it  
You want it  
You need it  
You krave it  
Believe it  
You got it

So you wanna be a star  
Like in the movies  
Everybody got dreams to satisfy  
But you gotta be smart  
And take your most free time  
Never under estimate  
Oh no

You want it  
You need it  
You krave it  
Believe it  
You got it  
You want it  
You need it  
You krave it  
Believe it  
You got it

You want it  
You need it  
You krave it  
Believe it  
You got it  
You want it  
You need it  
You krave it  
Believe it  
You got it

Everybody get a good vibration  
It won't hurt if you try  
Cause the ticket to your destination  
Comes from deep inside

Yeah yeah yeah  
Yeah yeah yeah

You want it  
You need it  
You krave it  
Believe it

You got it  
You want it  
You need it  
You krave it  
Believe it  
You got it

You want it  
You need it  
You krave it  
Believe it  
You got it  
You want it  
You need it  
You krave it  
Believe it  
You got it

You want it  
You need it  
You krave it  
Believe it  
You got it

You need it  
Believe it  
You want it  
You need it  
You krave it  
Believe it  
You want it  
You need it  
You krave it  
Believe it
