

Billy Currington, I Got A Feeling

I don't wanna rush this thing
I don't wanna jump the gun
I really wanna say those three little words
but i'm gonna bite my tongue

I'm just gonna lean on back
Leave it on cruise control
I'm gonna hold it all inside
Til the right time comes down the road

chorus:

I got a feelin'
My head's a reelin'
My heart is screamin'
I'm about to bust loose
Bottled up emotion
It's more than a notion
It starts with an "l";
And ends with a "U";
I got a feelin'
Are you feelin' it too?

I guess I've all but said it now
So much for hopin' you'd go first
Don't leave me hangin' out here on a line
Baby, it's your turn
Say you couldn't sleep last night
Swore that you could feel me breathe
Had you wantin' me there by your side
Yeah, baby I know what you mean

second chorus:

I got a feelin'
My head's a reelin'
My heart is screamin'
I'm about to bust loose
Bottled up emotion
It's more than a notion
It starts with an "l";
And ends with a "U";
I got a feelin'
You're feelin' it too

Bottled up emotion
It's more than a notion
It starts with an "l";
And ends with a "U";
I got a feelin'
You're feelin' it too
You're feelin' it too
Yeah, you're feelin' it too
Feelin' it too
Oh, yeah
