

# Billy Currington, When She Gets Close To Me

Like a summer breeze floatin' cross the water  
Softer than a whisper on my skin  
I can't begin to tell you how it moves me  
It's so intense, I burn within

When she gets close to me  
My emotion break free  
And I just wanna hold on to her permanently  
It's like nothin' else my heart has ever felt  
It's unbelievably heavenly  
When she gets close to me

She walks across the room just like an angel  
And I get that funny feeling deep inside  
Pulls up a chair and sits down at the table  
I come to life, oh, there's nothin' like

When she gets close to me  
My emotion break free  
And I just wanna hold on to her permanently  
It's like nothin' else my heart has ever felt  
It's unbelievably heavenly  
When she gets close to me

Oh, no one has ever touched me like this  
Set me on fire with just one sweet gentle kiss  
Amazing, that's what is is

When she gets close to me  
My emotion break free  
And I just wanna hold on to her permanently  
It's like nothin' else my heart has ever felt  
It's unbelievably heavenly  
When she gets close to me

Anywhere close to me  
When she gets close to me
