

Billy Dean, I'm In Love With You

I love you like a wild fire loves the wind
From way down in my soul out through my skin
You might say I feel it in my bones
It brings me to my knees, it lifts me up, it makes me strong
And I hold on

To every touch
Every kiss
And every moment just like this
The way you dance, the way you smile
And wear your hair just a little wild
The way you move me like you do
It's no wonder I'm in love with you

Love like this is sacred, ancient law
You wonder where I stand, I stand in awe
I've seen the other side of heaven's door
And every time that we make love it shakes me to the core
And I want more

Of every touch
Every kiss
And every moment just like this
To have the dance, to see you smile
And let your hair hang loose and wild
The way you do, the things you do
Girl, it's no wonder I'm in love with you

Yeah baby
I'm in love with you
Oh...

Oh I love your face
I love your lips
I love the taste that lingers long after the kiss
The way you do me like you do
Girl, it's no wonder I'm in love with you

It's no wonder I'm in love with you.
