

Billy Gilman, Almost Over (Gettin' Over You)

I'm almost goin' to the movies
And hangin' out with my friends
I'm almost seein' somebody new
I'm almost over getting over you

I'm almost comin' to my senses
But still a litle out of my mind
I'm almost happy but still a little blue
I'm almost over getting over you

[Bridge]
I know our love has ended
And we should be apart
But how can you live with
An almost mended broken heart

[Solo]
[Bridge]
I know our loved has ended
And we should be apart
But how can you live with
An almost mended broken heart

I'm almost sleepin' like a baby
I almost make it through the night
I'm ready to accept it's really true
I'm almost over, I can't believe it's over
I'm almost over getting over you
