

# Billy Gilman, God's Alive And Well

When I see the stars  
Hanging in the sky  
Oh  
When I watch a bird  
Spread it's wings and fly  
And each time I hear  
The wind blow through the trees  
Oh  
With every breath of air that I breathe  
All the things I can't see  
Still inside I believe

Chorus:  
In a baby's laugh  
In a mother's eyes  
Little miracles around us everyday of our lives  
The way the sun lights up the dark  
The hope that I have in my heart  
And as far as I can tell  
God's alive and well  
Yeah God's alive and well

Just like the earth  
Cradles the moon  
Oh  
How that far away sun  
Still makes the flowers bloom  
And the joy only heaven  
Can bring to us all  
Oh  
If trouble comes  
I am safe in the hands  
'Cause I know there's a plan  
My heart understands

Chorus 1x

Call it a little bit of luck  
Or just a simple twist of faith  
When we get swept up in the arms  
You can feel it everyday

Chorus 1x

As far as I can tell  
God's alive and well
