

Billy Gilman, Gonna Find Love

hey girl take the wheel, i cant drive anymore
what i want is to park this car
when im with you
and wait til the cops come around

gonna find love if we keep this up
cant stop, we feel the rush
if we keep foolin around and it gets crazy enough
were gonna find love

the first time i met you
it crossed my mind
your next kiss and your last kiss are gonna be mine
and id say, were right on time

gonna find love if we keep this up
cant stop, we feel the rush
if we keep foolin around and it gets crazy enough
were gonna find love

steamy windows
theres no way out
one more kiss
are you with me now

gonna find love if we keep this up
cant stop, we feel the rush
if we keep foolin around and it gets crazy enough
were gonna find love....
