## Billy Gilman, Spend Another Night

I instantly knew when I saw you You and I would be forever Hearts never apart, true from the start To each other and together There's nothing we can't do And until the end of time If you tell me you'll be mine

CHORUS:I'm never gonna spend another night Without you in my dreams
For the rest of my life
I'm gonna reach out to you honestly and try
To give you what you need
With all of my mind
cuz nothing has ever felt so real and so right
I'm never gonna spend another night
(without you in my dreams)

but u are so in my heart
That even alone in the dark I can feel the
Light of our love shining
We are so meant to be
That we're definitely destiny
And there's no denying
That I love you
Though it's so cliche
There's nothing else to say but...

(Repeat CHORUS)
