

Billy Gilman, The Woman In My Life

The woman in my life wakes me up in the morning
With a gentle touch
She kisses me and whispers "darling
This day was made for us";

The woman in my life has a way of smiling
That can turn a gray sky blue
It's just like her without even trying
To make the whole world new

And she's there when I need her
My guardian angel
In the dark I can see her
Here by my side

The woman in my life catches me when I've fallen
And holds me like a baby when I'm hurt
No matter how high I climb
She guides me safely back to Earth

And she's there when I need her
My guardian angel
In the dark I can see her
Here by my side

The woman in my life says I'm the one she prayed for
And all she's ever gonna need
But she's the one my heart was made for
And that's the way it's always gonna be

Now I understand just why my dad
Is crazy about the woman in my life
