## Billy Idol, Lady Do Or Die Cherie

What it takes
It takes a dog to cry
What it takes a boy must die
What it takes sometime
Before midnight
What it takes
It takes a life

'Cos I was o' so young Misshaped before my time Ride metallic monsters And there's mud in your eye For lady do or die

It makes a woman bleed
Can't give her all her needs
Close the door before you leave
Can almost hear her breath
It's a shame "what you've become"
The things I do for love
On this road tonight
Looking for her candlelight
For lady do or die
For lady do or die

Tumbleweed, passing by Train whistle start to cry More people start to die

I don't know why God knows why

I wonder what it takes To free someone I wonder what it takes Free you from your prison

Kings of the road keep travelin' on Every mile a ragged woe Kings on the road keep smiling on Play the guitar and sing the blues and cry Play the guitar and sing the blues and cry Play the guitar and sing the blues and cry

For lady do or die For lady do or die For lady do or die For lady do or die

For lady do or die
Play the blues and cry
For lady do or die
Play the guitar
For lady do or die
Sing, sing the blues and cry
For lady do or die...
