

# Billy Idol, Running With The Boss Sound

Yesterday by the paperstand I felt the power  
Of another religion  
Rebels with a cause came out of the sun  
And spoke the only language they'd been given  
Creepers tapping out the beat as I felt the heat  
Man they sure looked neat  
Well tonight for sure  
You could feel the same as me  
We didn't have to fight  
On the other side of town  
Running with the boss sound  
Running with the boss sound  
Running with the boss sound

In the day we use machines or brains  
Cos we need hard cash for living  
And later between tracks & raps with friends  
We'll find some time for loving  
Stratocasters straff the sky  
As disco johnny hustles by  
Man those feet can fly, high  
Well tonight let's dance and risk romance  
Baby let's take a chance  
We'll make it in a single bound  
Running with the boss sound  
Running with the boss sound  
Running with the boss sound

I feel it in the air and I know that you're there  
We won't let you down

The phantoms of the underground  
Running with the boss sound  
Running with the boss sound  
Running with the boss sound

Racing wild with the radios blasting  
Out ready steady go  
As we rip through the charts  
Crashing like angles  
At the end of rocks rainbow  
Electricity runs in my blood like gods  
Man if you could see it  
By tonight for sure you'd be the same as me  
A junkie needing more  
Our feet burning up the ground  
Running with the boss sound  
Running with the boss sound  
Running with the boss sound

Yeah we're burning up the ground  
Where the rockabilly beat pounds  
With the ska rhythm pressing down  
Where the skinhead moon stomp pounds  
Where the heavy metal comes down  
When the punk rockers are round  
Yeah you and I are found  
Yeah you and I are found  
Running with the boss sound  
Running with the boss sound  
Running with the boss sound
