

# Billy Joel, Turn Around

Oh, sweet lady  
Runnin' like a stream  
You don't look back  
Because you know hands are clean

You make believe  
That the past was just a dream  
You make believe the past was just a dream

Turn around  
Turn around  
And I will sing for you a song  
I don't know where you been  
But you been gone too long

Oh, Eliza, you must beget again  
And all the roads that you have walked are  
comin' to an end  
I was your lover but I thought  
I was your friend I loved you but  
I thought I was your friend

So, turn around  
Oh, turn around  
And I will sing for you a song  
I don't know where you been  
But you been gone too long

Oh, sweet lady stand beside the sea  
Maybe you will find a little time to think of me  
Won't you please remember what I tried so hard  
to be? Yeah, remember what I tried so hard to be

So, turn around  
Oh, turn around  
Yeah, and I will sing for you a song  
And I don't know where you been  
But you been gone too long

Too long  
I said, you been gone too long  
You been gone too long
