

Billy Klippert, Just Another Day

Souls collide, stars align when I found you
Endorphin highs, cloud my mind
Still I look for you

And I fumble through the maze and you're hiding when
I thought I found you

Just another day is like eternity
Do you love me? I'm on a high
That will only get me down
When you're not around

Uncertain times, heart and mind
Both have forsaken you, an uphill climb
Love and life they deny you

Do you feel the cold when you're all alone
You're not the one I thought I knew, yeah
