

# Billy No Mates, Frijweg

make a wish  
take your time make your mind up send it off  
make a wish  
take your time wait for something special  
make a wish  
close your eyes wait for something found in dreams  
make a wish  
mums the word and in the meantime

I don't want to know I don't want to hear it  
say it out loud and that'll be the end of it  
if you want it to succeed, learn to keep a secret  
say it out loud and that'll be the end of it

make a wish  
take your time make your mind up send it off  
make a wish  
take your time wait for something special  
make a wish  
close your eyes wait for something found in dreams  
make a wish  
but be careful what you wish for

[Chorus]
