

# Billy Ocean, Love Is Forever

I live the same old dream  
Day and night  
Memories of love I knew  
I couldn't live my life or so it seemed  
My heart cried out for only you

Oh I believe in love  
But I believe in you  
Things you do  
I'm falling in love again with you  
A broken heart could mend if given time  
I know why love is forever  
Love is forever with you

If every passing day I realize  
And time will never heal the pain  
You're all I've been thinking of  
Everyone will fall in love again

I believe in love  
I believe in you  
Things you do  
I'm falling in love again with you  
A broken heart can mend if given time  
I know why love is forever  
Love is forever with you

Every road will lead me back to you again  
My love  
Oh I cried so many tears  
I've been facing all the days without you  
So tell me you care

Oh I believe in love  
I believe in you  
Things you do  
I'm falling in love again with you  
Tried to let it go but it wouldn't die  
I know why Love is forever  
Love is forever with you
