

Billy Raffoul, Jim Carrey

I went back to the city
The snow it was pretty
But no one was sharing the view

That Italian restaurant
Everybody's jerkin' off
I didn't care for the food

It's not about where you've been
It's who you've gone there with

Like a scene from that movie
With Kate Winslet and Jim Carrey
It's easier to believe for all these years
You were never here

I could swear that the sun doesn't shine
Quite as bright as the light
Of your name in my phone

I know that it's only the rain
But I swear that my brain
Turns it into a song

Your memory has made me feel
Like this city's a god damn minefield

Like a scene from that movie
With Kate Winslet and Jim Carrey
It's easier to believe for all these years
You were never here

Like a scene from that movie
With Kate Winslet and Jim Carrey
It's easier to believe for all these years
Like a dream so bittersweet
I don't regret a single thing
But it's easier to believe for all these years
You were never here
