

Billy Ray Cyrus, Everywhere I Wanna Be

Everywhere I Wanna Be
(Marty Dodson - Danny Wells)

I like the me I see in your eyes
And knowing that I'm the one that makes you smile
You've given love a name and a face
Showed me that it can be a beautiful place.

Everywhere I wanna be in this life
Is here by your side, baby
All I ever wanna do is get lost in lovin' you
Long as you're with me I'm everywhere I wanna be.

Your breath on my skin is a tropical breeze
Your kisses send an arctic chill over me
Why wander the planet what could I hope to see
The view when I hold you is amazing to me.

Everywhere I wanna be in this life
Is here by your side, baby
All I ever wanna do is get lost in lovin' you
Long as you're with me I'm everywhere I wanna be.

Oh, oh,
--- Instrumental ---
Oh, oh

Everywhere I wanna be in this life
Is here by your side, baby

Everywhere I wanna be in this life
Is here by your side, baby
All I ever wanna do is get lost in lovin' you
Long as you're with me I'm everywhere
I wanna be.

I Wanna be...
