

# Billy Ray Cyrus, Rock This Planet

(Michael White/Joe Collins)

I've been on the road since I was a kid

I was born to lead this life I live

Fate placed me among the chosen few

I'm a man with a mission, got a job to do

Rock this planet

Rock this planet

The world meeds rockin'

And I ain't stoppin' 'til it's done

Well I'd love to stay baby but I've got to run

People everywhere need to have some fun

I've got the message that'll set 'em free

The whole dang world is depending on me to...

Rock this planet

Rock this planet

The world meeds rockin'

And I ain't stoppin' 'til it's done

We did a show in Tokyo, they ate it up

Paris and Rome couldn't get enough

When we were done in London, we were Berlin bound

We cranked it up until the wall came down

Rock this planet

Rock this planet

The world meeds rockin'

And I ain't stoppin' 'til it's done

Rock this planet

Rock this planet

The world meeds rockin'

And I ain't stoppin' 'til it's done
