Billy Ray Cyrus, Three Little Words

Do I love you? Yes a thousand times
lately 'ive been goin' out of my mind
get the feelin' your pullin' away
it's gonna hurt me if you wont stay
can't stand the thought of bein' alone, you need to be there when i get home
if you can tell me one more time it would surely ease my mind
CHORUS:
Three little words will be fine
i love you
i love you
i need you
to know that your still mine
three little words will be fine

Its gotten crazy I don't understand
how can love get so out of hand?
i've never been so uncertain before
i have to know if im right or wrong
with mixed emotions i cant go on
ive got to know that im not blind
just lay it on the line
CHORUS

Cant stand the thought of being alone
you need to be there when i get home
if you can tell me one more time it would surely ease my ming
CHORUS
