

# Billy Ray Cyrus, Touchy Subject

(Michael Lunn/Gordon Bradberry)

I'll sit and talk baby all night long  
We can discuss whatever you want  
We'll share our secrets, our little white lies  
Before we're through, we'll be bona fide worldly-wise  
But there's one thing I wanna leave in the past  
So don't bring it up, don't even ask  
'Cause that's a touchy subject  
Let's not talk about it  
Right now I can't explain it  
I'm better off without it  
I'm beggin' you please  
Don't even whisper one little word about love  
'Cause that's a touchy subject with me  
Don't take the shine off our moment together  
It's way too soon to talk about forever  
Go ahead and get a little closer to me  
But darlin' won't you do me one courtesy  
Let's hold off on our wants and our needs  
We both know right where that leads  
'Cause that's a touchy subject  
Let's not talk about it  
Right now I can't explain it  
I'm better off without it  
I'm beggin' you please  
Don't even whisper one little word about love  
'Cause that's a touchy subject with me  
Touchy subject  
It hurts to talk about it  
It starts rainin' memories  
And I feel like I'm drownin'  
I'm beggin' you please  
Don't even whisper one little word about love  
'Cause that's a touchy subject  
Let's not talk about it  
Right now I can't explain it  
I'm better off without it  
I'm beggin' you please  
Don't even whisper one little word about love  
'Cause that's a touchy subject with me
