

Billy Ray Cyrus, We The People

WE THE PEOPLE

The farmers rise up every morning at five
The truckers drive them eighteen wheelers all night
The factory workers they build it with pride
Twenty four-seven down the assembly line
In every city, in every town
Somebody's gotta make the world go 'round
We the people move it, we the people know
We the people we run the country
We the people prove it we're the heart and soul
We the people we run the country
Here's to every salesman on the telephone line
And every waitress working hard for those dimes
The middle managers who punch overtime
And anyone fighting wars fires and crimes
Day after day, year after year
The mint might print it but the buck stops here
We the people move it, we the people know
We the people we run the country
We the people prove it we're the heart and soul
We the people we run the country
(instrumental break)
We pay the taxes, we pay the bills
So they better pay attention up on Capitol Hill
We the People of the United States
In order to form a more perfect Union, establish justice
Insure domestic tranquility, provide for the common defence
And secure the blessings of liberty to ourselves and our posterity
Do ordain and establish this Constitution
Of the United States of America
We the people move it, we the people know
We the people we run the country
We the people prove it we're the heart and soul
We the people we run the country
We the people choose it, we the people vote
We the people we run the country
We the people rock it we the people roll
We the people we run the country
We the people move it, we the people know
We the people we run the country
We the people prove it we're the heart and soul
We the people we run the country
We the people move it, we the people know
We the people we run the country
We the people prove it we're the heart and soul
We the people we run the country
