Billy Squier, Four Letter Word

L-o...whaddo I know V-e...she's not comin' back to me L-o...i can't let go V-e...tell ya what that girl don't mean to me So you see my friend... Love is just a four letter word

Once there were schoolyards with children at play Once there was england...and one sunny day One kinda woman for one kinda man How could I know I was not in her plans

Say love...say love

When I was soarin' you urged me to fly When I was hungry you fed me your lines Led me to water...you sang me your song One day when I woke up I found you were gone

Say love...say love... Say love...say love... Nobody told me...love is just a four letter word

L is for losin' the love that you crave And o is when it's over and your heart can't explain V is for the victim...the victim of the crime And e is every morning when you break down on time So you see my friend...love is just a four letter word

L-o...i can't let go

V-e...friends all say just let it be L-o...oo-oo V-e...

Forget your illusions...forget what they say 'cause all your dreams of happiness Have just blown away Once in a lifetime your spirit will fly That's what she told me 'fore she told me good-bye

Love...say love Love...say love So you see my friend...love is just a four letter word

L is for losers when fortune turns blue And o is overcomin' what you know to be true V is for the vengeance that's left out in the rain And e is each and every night you crumble in pain So you see my friend...love is just a four letter word So you see my friend... I say & amp; amp; quot; stop - don't say it& amp; amp; quot; So you see my friend...love is just a four letter word

L-o...whaddo I know V-e...she's not comin' back to me L-o...i can't let go V-e...tell ya what that girl don't mean to me

We're just the victims of the powers that be
