

Billy Talent, Definition Of Destiny

Wont you stop, take a breath
Find a moment to reflect
On the pure and simple choices that we fail to see
From the worst to the best
From the east coast to the west
On a never-ending quest to end our misery
So cut to the chase, its time to escape, before its too late
Yeah pick up the pace, catch up with fate, its slipping away
So get off my road, no I wont be told, cause I got my own
Definition of destiny)
Yeah take back control, and dont let it go, the futures unknown

Punch the clock to a own
While our lives are put on hold
When did all our childhood dreams begin to disappear?
Well a long time ago
We had passion, we had goals
Why is life so set in stone it doesnt have to be?
So cut to the chase, its time to escape, before its too late
Yeah pick up the pace, catch up with fate, its slipping away
So get off my road, no I wont be told, cause I got my own
