

Billy Talent, Lying In The Shadows

Constant quick fixes, don't make no sense
Hop on bandwagons, They make me sick

[Chorus]

Don't you tell me what you think is right!
When you're living in the shadows
I can tell that, you have lost the fight!
When you're living in the shadows

Distant loud chuckles, they keep me awake
Awkward instances won't make you hip

[Chorus]

We've said this all before, your shadow's at the door,
We've said this all before, your shadow's at the door,
There's darkness in the hall and we won't take the fall!

[Chorus]
